

2. Mandatory assignment MAT2410 Autumn 2017

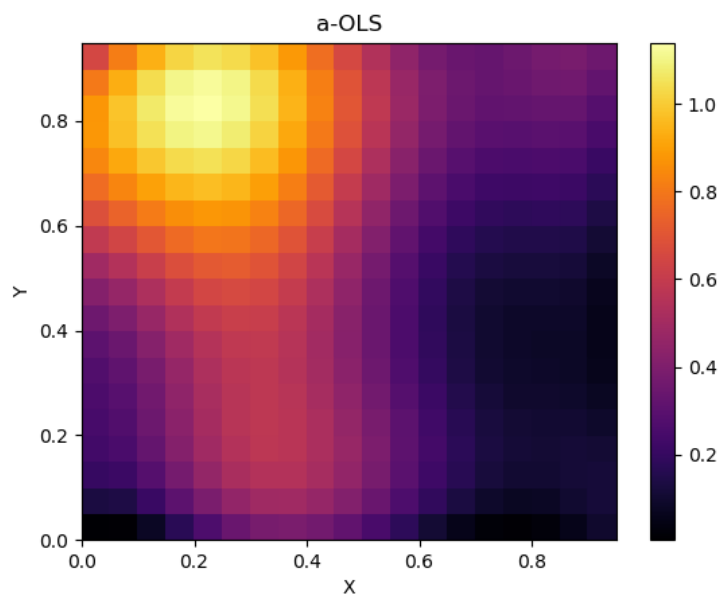

Mikael Ravndal

25. september 2018

All approximation is done with degree equals 5.

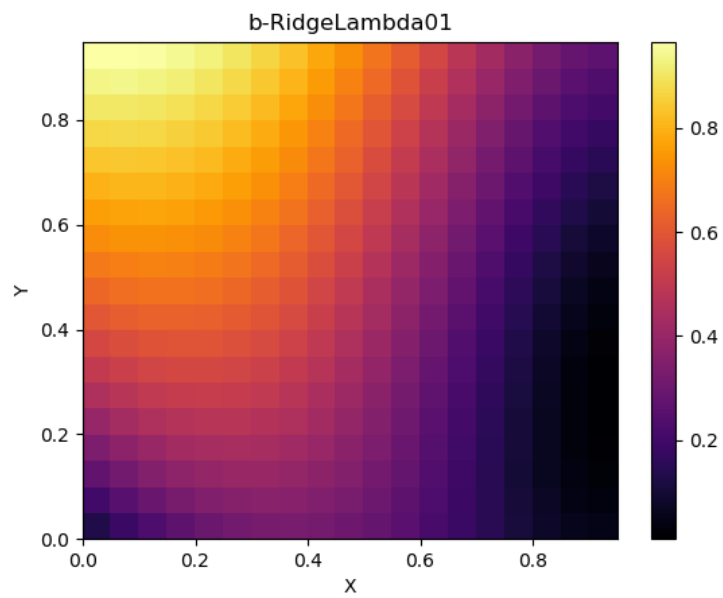

Part a)

Ordinary Least square of the Frankefunction(the same as Ridge with $\lambda = 0$):

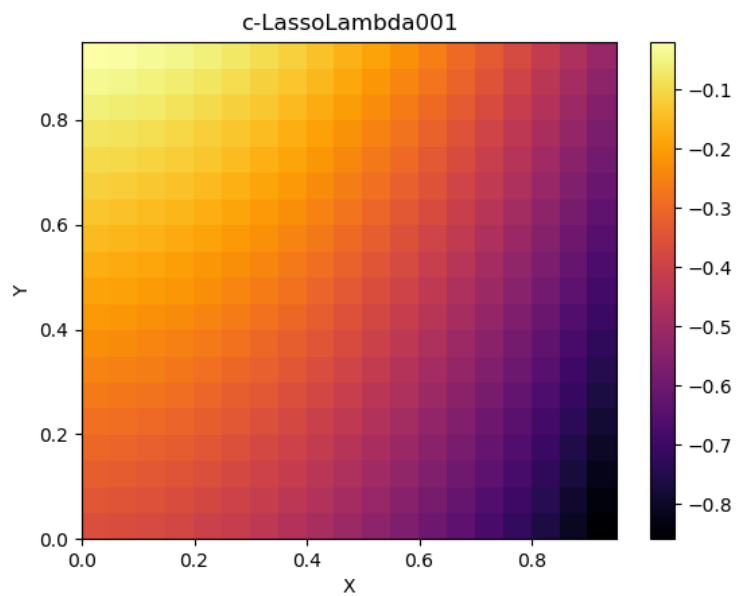

Part b)

Ridge Regression with $\lambda = 0.1$

Part c)

Lasso Regression with $\lambda = 0.01$

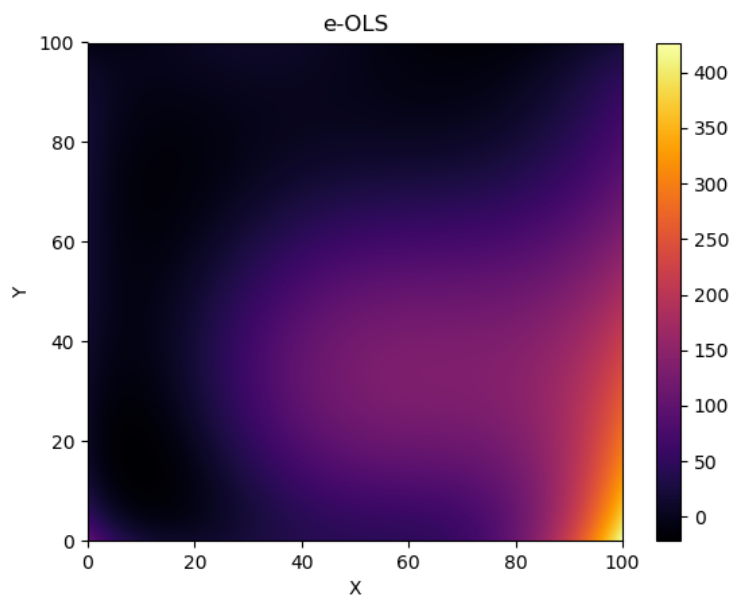

Part d)

Imports 100x100 chunk of real data from top left corner of dataset nr.1.

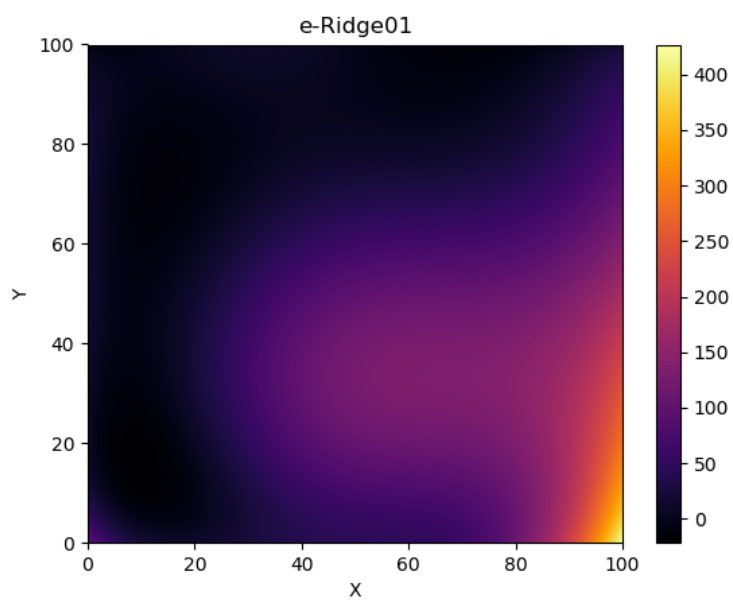

Part e)

Repeat of a-c, but with real data from d)

OLS:

Ridge:

Lasso:
